

# California OES Weather Threat Briefing

Saturday, June 27, 2020  
9:00 AM PDT

**Day 1 (Saturday):** Hot temperatures continue today across the interior portions of the state. Winds will start to pick up across interior southern CA tonight.

National Weather Service  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**06/27/20 - 07/03/20**

## **Saturday**

- Hot and dry conditions will continue today across some interior portions of the state
  - Temperatures will be overall cooler than yesterday
- Isolated thunderstorms are possible today across higher elevations of southern CA.
- Most of the state will see continued dry conditions and breezy winds at times, which will lead to elevated fire weather concerns, with the strongest of these gusty winds expected in and around the Antelope Valley this evening.

## **Sunday-Monday**

- Strong winds are likely across the interior portions of southern CA and the eastern Sierras for Sunday and Monday.
- Red Flag Warnings are in effect for these portions of the state for Sunday and Monday.
- Cooler temperatures can also be expected during these couple of days ahead of a slight warming trend by the middle of next week.

## **Monday-Friday**

- No significant impacts are expected
